Every room in this amazing Victorian home, built in 1886, had been lovingly restored, and now it was the kitchen's time for attention. The original 8' x 11' footprint needed to be increased to allow for the homeowner's desire for a new large kitchen with professional sized appliances. Dream Kitchens designed a space that matched the original angled projection of the dining room, and then allowed for a bank of large windows to take advantage of the wonderful views. With this new (18' x 20') space, a true dream kitchen was

created. Furniture grade beaded inset cabinetry with a custom stain and glaze, topped off by Château Bordeaux granite provided a wonderful interaction with the stone flooring. The new wine and coffee bar provided ample space for entertaining large groups, while the separate desk and two pantries provide the homeowners with needed every day conveniences. This new kitchen fits perfectly into the architecture of the original home while satisfying all the client's expectations.

SPECIAL DESIGN FEATURES: Seating area shaped to mimic details of arches found in home; wood hood designed to accommodate hand made tiles; custom carved columns to match existing columns in home; multiple custom pullouts and dividers.

PRODUCTS USED: Stylecraft Cabinetry, Plum stain/White glaze; Sub-Zero refrigerator; Wolf cooktop & oven; custom hood; Asko dishwasher; Franke sink; ROHL stainless steel faucet; Château Bordeaux granite countertops.

BUILDER: Superior Architectural Renovation

The kitchen was shaped into the open living plan so that breathtaking panoramic views can be enjoyed from every vantage point of this new mountaintop post-and-beam home. Cabinetry with a prominent molding detail balances the large, exposed beams and timbers. Maple wood was finished in a warm, burnished stain then complemented by select pieces in "licorice" paint that was rubbed through to reveal some of the natural maple wood hiding beneath. Juparana Persia granite countertops further reflect the natural beauty that surrounds this home.

The U-shaped island acts as the kitchen "stage" to entertain family and friends. The working side features refrigerator drawers in the food prep zone while generous seating and valuable storage cabinets complete the outside of the island.

PRODUCTS USED: Stylecraft Cabinetry, Centennial on maple and Licorice; Sub-Zero refrigeration; Wolf cooktop, ovens; Vent-A-Hood; Bosch dishwasher; Grohe satin nickel faucet.
